

1. **create** a new branch and switch to it, in README file, add a line about favorite programming language

The screenshot shows a VS Code editor with a README.md file open. The file content is as follows:

```
1 # CSE110_Lab-1
2 Helena's User Page
3
4 My favorite programming lanague is Java.
```

Below the editor, the TERMINAL panel is open, showing the following commands and output:

```
helenahundhausen@MacBook-Pro-69 CSE110_Lab-1 % git branch vscodeUI
helenahundhausen@MacBook-Pro-69 CSE110_Lab-1 % git checkout vscodeUI
Switched to branch 'vscodeUI'
helenahundhausen@MacBook-Pro-69 CSE110_Lab-1 % ls
PRIVATE.txt  README.md  index.md  screenshots
helenahundhausen@MacBook-Pro-69 CSE110_Lab-1 % git status
On branch vscodeUI
Changes not staged for commit:
  (use "git add <file>..." to update what will be committed)
  (use "git restore <file>..." to discard changes in working directory)
        modified:   README.md

no changes added to commit (use "git add" and/or "git commit -a")
helenahundhausen@MacBook-Pro-69 CSE110_Lab-1 %
```

2. **create** a .gitignore file in the root of the repository and add the path to the PRIVATE.txt file. Stage the changes and add an appropriate commit message.
